Travel Media • Airside Services

Digital press platforms

Our digital platforms deliver world class content across airline ecosystems.

DMD eReader

Powered by PageSuite

For secure, verified delivery of the latest titles to your customers nothing matches our versatile new eReader solution.

The most powerful media platform in the global travel sector integrates seamlessly into any proprietary airline app or onsite digital ecosystem to deliver content in-lounge or remotely before or after the customer journey.

We partnered with leading media platform provider PageSuite to develop DMD eReader and ensure we stay at the leading edge of digital delivery technology as it evolves in the wider consumer sector.

Our end-to-end service lets you target users at multiple touchpoints throughout the journey:

 Via airline app pre-departure

 In-lounge via WiFi or DMD Media Cube

 Inflight via IFE systems

 Via airline app after arrival

Travel Media • Airside Services

DMD Media Cube

DMD Media Cube is an independent, compact and powerful digital media server designed specifically for the airside environment. It creates a discrete dedicated hotspot for content delivery to passenger devices, leaving restricted onsite WiFi bandwidth to other online users.

A single unit can serve a moderate sized airside lounge and the product is easily scalable in numbers to meet the demands of even the largest flagship facility.

-  Quick and easy to install in any airside area
-  Consistent platform for customer engagement
-  No reliance on inconsistent onsite WiFi
-  Easy to refresh content for a current, topical offer
-  Simple to deploy with minimal local support
-  Innovative PaxEx differentiator support

We Deliver
the World

About DMD

DMD is a world leading travel media and airside services provider. We let digital and print publishers reach valuable out-of-home audiences and give airlines, airports and train operators access to the very best newspapers, magazines and more.
