

Get Onboard with DMD

Travel Media • Airside Services

Rail entertainment

We are the rail entertainment experts in domestic markets and across borders.

DMD delivers a unique and affordable media service to travel operators around the world.

-  Entertainment content management
-  Newspapers and magazines
-  Onboard and offboard delivery
-  Digital end user platforms
-  Global service support network
-  Central account management

We work with more travel operators globally than any comparable service provider, with a record of over 35 years of consistent delivery to airlines, airports, train and coach operators. Our expert teams manage the entire process, from content sourcing and delivery to central invoicing across territories and media formats in one seamless service, locally and globally.

DMD is Europe's premier content service provider to TOCs, expert in complex movie and TV licensing for terrestrial out-of-home exhibition in domestic markets and across borders.

We entered the emerging rail entertainment market in 2015 as sole content manager for major UK based operators Eurostar and Virgin Trains, when both launched services streamed to passenger devices.

Travel Media • Airside Services

Helping launch those visionary services taught us the superb benefits of onboard entertainment to rail innovators:

-  Brand differentiation
-  Customer satisfaction
-  Limits connectivity uptake

We work direct with TOCs and with third party tech partners, and as a full service CSP our media offer covers:

-  Movies
-  Short-form video (TV shows & clips)
-  Browser games
-  Short-form video (TV shows & clips)
-  Bespoke content

Our movie service delivers everything from new and classic Hollywood hits to international language titles from around the world.

We Deliver
the World

About DMD

DMD is a world leading travel media and airside services provider. We let digital and print publishers reach valuable out-of-home audiences and give airlines, airports and train operators access to the very best newspapers, magazines and more.
