Travel Media • Airside Services

Airside Lounges - Digital

Our digital platforms deliver world class content in airside lounges with or without onsite WiFi.

In decades delivering media services to airlines on the ground – in lounges, at gates and direct to aircraft – we’ve learned to meet the unique needs of airports and independent lounge operators too.

DMD is a known and proven supplier at UK terminals and many major international airports worldwide, and our airside operations carry the assurance of a consistent and responsive media aggregator service.

We deliver a unique and affordable media service for airside lounges around the world.

-  Newspapers and magazines
-  Print and digital formats
-  Content and end user platforms
-  Global service support network
-  Central account management

We offer a complementary eReader solution to lounge operators providing a superb digital reading experience on-the-go.

We partnered with leading media platform provider MediaPad to develop our DMD eReader technology, allowing your customers to enjoy a huge range of top selling newspapers and magazines at their leisure. Our white-label service is tailored to your brand, your locations and your passenger profile for a cost effective enhancement to passenger experience. Our global footprint gives us access to local language content around the world, to match route profiles across your network.

-  Quick and easy to install
-  Easy to refresh content for a current, topical offer
-  No reliance on inconsistent onsite WiFi
-  Simple to deploy with minimal local support
-  ABC accredited and recognised by circulation auditors
